Clearview FCU Installs AED Devices in branches:

Moon Township, PA— Providing continued emergency support to the community, Clearview® Federal Credit Union recently installed Automated External Defibrillators, or AEDs, at each of its twelve branch locations. An AED is a portable electronic device that automatically diagnoses potentially life threatening cardiac arrhythmias of ventricular fibrillation and ventricular tachycardia in a patient, and is able to treat them through the defibrillation.

Clearview's ability to respond to sudden cardiac arrest depends largely on the availability of AED devices and trained employees. Having an AED device in each branch will enhance Clearview's capabilities as an emergency responder in the event of a life-threatening medical emergency. Clearview is pleased to be able to provide AEDs for the safety and convenience of members and employees.

Clearview Federal Credit Union serves approximately 77,040 members, with reported assets valued over \$602 million as of June 30, 2009. Membership in Clearview is open to individuals who live, work, worship, attend school or volunteer in the Southwestern Pennsylvania community, which includes Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington and Westmoreland counties. Membership is also open to immediate family members of current Clearview members. Visit [www.clearviewfcu.org](http://www.clearviewfcu.org) for more information.

Clearview installed AED in all branch locations, to insure the safety and convenience of its members and employees.
