Online Banking – First Time Login

To enroll in Online Banking, you need:

- Your Clearview account number
- Access to the email address or phone number provided when opening your account

If you do not have your account number, please call 1-800-926-0003 or stop into your local financial center.

1. On your computer or mobile device, navigate to clearviewfcu.org. In the upper right-hand corner, select the ‘Log In’ box.

2. In the drop-down box, enter your Clearview account number as your username. You will be able to change your username in the next step. Your temporary password will be the last 4 digital of the primary account holder’s social security number.

3. Once logged in, you will be directed to update your username and password.

Your Username:
- Cannot be your account number
- Cannot be all numbers
- Must be at least 6 characters

Your Password:
- Is case sensitive
- Must be at least 8 characters
- Must use a mix of numbers, letters, or special characters
- Cannot contain any spaces

4. After reading the terms and conditions, click ‘Complete Sign up’

5. You will be directed to a multi-factor authentication system to confirm your identity. You can choose to either receive an email, a text message, or a phone call to verify your login information. If you are on a private device, you will have the option to register the device so you do not need to complete the multi-factor authentication the next time you log in on that device.

That’s it! Next, download our Apple or Android app to have access to your accounts wherever you go.
